Milesight

MILESIGHT PoE SWITCH SERIES

Allowing to provide both power and data over one single Ethernet cable, the Milesight PoE Switch Series offers second-to-none transmission experience with 4/8/16/24 PoE ports available. The plug and play with no configuration and the high performance ports guarantee the efficient performance of the network deployment.

Versatile Ports

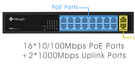
4-Port PoE Switch

4*10/100Mbps PoE Ports
+2*100Mbps Uplink Ports

8-Port PoE Switch

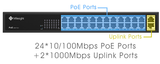
8*10/100Mbps PoE Ports
+2*100Mbps Uplink Ports

16-Port PoE Switch



16*10/100Mbps PoE Ports
+2*1000Mbps Uplink Ports

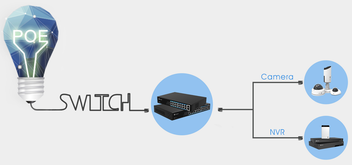
24-Port PoE Switch



24*10/100Mbps PoE Ports
+2*1000Mbps Uplink Ports

With a range of PoE ports from 4, 8, 16 to maximum 24, Milesight PoE Switch Series provides flexible choices for various applications. It automatically recognizes the power receiving devices and offers power. Also, transmitting the data over one single Ethernet cable, it simplifies the network deployment in remote areas without power outlet.

Smart PoE Power Supply

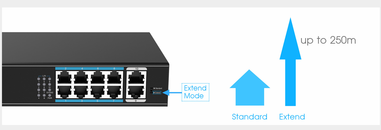


Featuring multiple 10/100Mbps PoE ports which support IEEE 802.3af/at protocol and 2 uplink RJ45 ports, the Milesight PoE Switch Series provides maximum power budget of 400W for all PoE ports and 30W for every single PoE port respectively, allowing users to have several different camera variations configured.

Superb Transmission

With up to 14.8Gbps switching capacity, non-blocking design and full link-speed forwarding, Milesight PoE Switch Series is able to provide fluent transmission. At the same time, its reliability of data transmission is well guaranteed by the self-adaption ports which support both IEEE 802.3x Full Duplex Communication and Backpressure Half Duplex Communication.

Flexible Extend Mode



With the extend mode, the PoE Switch Series is able to offer more flexible choices for long range transmission, extending the distance up to 250m, which is greatly helpful to bring better user experience.

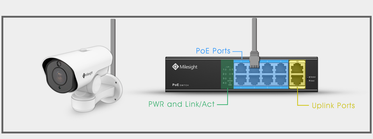
Surge Protection

Reaching 4KV surge protection, the PoE ports owns the capacity to keep the PoE Switch Series from lightning strikes and other electrical surges, offering reliable performance even in some harsh environments.

Reliable & Safe Performance

Abide by safety requirements of industrial standard, the Milesight PoE Switch Series is definitely reliable to bring safe performance. The exquisite metal housing, fanless design, low power consumption and continuous PoE power supply guarantee the efficiently and stable running.

Easy to Use



The plug and play with no configuration makes the maintaining as easy as ABC. With the indicator lights of PWR and Link/Act, users can easily get the working status of the connected devices. All those will have no doubt to simply the use.
